Evangelical Theological Society | Institute for Biblical Research | North American Patristics Society | The London Lyceum

RESEARCH INTERESTS

The elements and attributes of the Trinity related to divine power in application(s) to the Creator-creature interaction and creaturely transformation.

The integrative application—including benefit and detriment—of the Nicene and conciliar construct(s) of God to Contemporary Christian Theology, Counseling, and creaturely transformation.

The benefit, challenge, and hindrance of Nicene and conciliar constructs of God integrated with cognitive and experiential therapies—including recovery and Emotionally Focused Therapy (EFT).

The Christian Doctrine of God, the Trinity, and pneumatology with special focus on experience, divine action, perfecting works, and unity/distinction of Divine Persons.

The absolutes of Biblical authority and divine inspiration with special attention to theological interpretation of Christian Scripture.
